

Vocabulary

Amphibians	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
Fish	Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
Reptiles	All reptiles breathe air. They have scales on their skin.
Mammals	Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
Birds	All birds have a beak, two legs, feathers and wings.
Herbivore	Animals that only eat plants are herbivores.
Omnivore	Animals that eat both plants and other animals are omnivores.
Carnivore	Animals that mostly eat other animals (meat) are carnivores.
Sight	Your eyes let you see all the things around you.
Smell	You smell using your nose. Your nose can tell if things smell nice or not nice.
Touch	Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it.
Taste	Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet.
Hearing	Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
